### Another Success for Municipal Ownership

(Editorial in the Bridgeport Standard.)

Score another success for municipal ownership. It is the city water, or public water, of Wakefield, Mass., municipal ownership after a trial of six years is declared after a trial of six years is declared satisfactory. A reduction of rates to consumers has resulted, the value of the plant has increased and the total gain, in saving and in value up to date amounts to \$120,000. The city ownership of water is quite often successful as in Hartford, for instance, where they did nobig, till it came to a question of enlargement for a growing town and then they fell down. But private plants do that sometimes, although they are more likely to look out ahead and take measures in advance that save trouble ly to look out ahead and take measures in advance that save trouble in the end. New London has a good system of water works owned and operated by the city and we never hear any complaint about the management there. To be sure the supply is ample and the demand does not grow so fast as in some other towns.

does not grow so fast as in some other towns.

In Kansas there are 137 cities and towns which have waterworks, and of these 118 towns own and operate their own plants. In a short time all the towns in the State having public water will handle it themselves. Already some of the towns own and operate electric light plants in connection with their water works and the combination seems to succeed very generally,

# **NEW DEFINITION** OF RESIDENTIAL NEIGHBORHOOD

Judge Foster Thinks it Place Where Large Dwellings of the Rich Are."

Judge Carl Poster of the city court in his argument as counsel for Patrick J. Mctiuire, who seeks to have a saloon at Coimbbia and Gregory streets stated that his opinion of a residential section was one where there were a number of single family houses, owned by wealthy people, and not tenement houses of from three, four and up to eight families. There are three grounds on which the commissioners can reject the application. The must turn the application down on any one if it is shown that there is insufficient police protestion.

Late yesterday afternoon Supt. Eugene Birmingham was called as a witness. He stated that the same police protection was accorded this section of the city as was ten years ago, when an application was made and rejected for that reason.

# Owners and Rent Payers To get a \$35 rug for \$29, be quick!

Durbar Wilton rugs at \$35 are good value. Durbar Wilton rugs at \$29 are almost-wonderful value. And you will need to be quick to get one at this price.

We had a certain quantity of them sent us by the maker so we could sell them at this below-usual price. That quantity is nearly gone—and there will be no more at the price.

As a matter of fact, Durbar and all other good rugs will cost more money within a very short time. Whole-sale prices have been advanced. Retail prices will have to follow suit, unless rugs are cut down in quality. And it does not pay to cut quality; a rug must be good in order to stand the wear and tear that is put upon it.

So you can count upon really saving more than \$6 when you buy one of these Durbar rugs at \$29. Figured on today's wholesale cost, they are worth more than \$35.
